

Hello

My name is Clayton Clysdale Finnell. I'm electrician by trade and I also run the Facebook group 1000 Good Deeds. I'm father of 4 children. I have numerous awards from citizen of the year to Paul Harris but that isn't important right now. What is important is to vote for someone you trust. Someone you can approach without being judged. We need a voice in our great community. We need someone who will fight against the city. Let me fight for the students, and parents to not pay for years of mismanagement of the cast replacement program. We need someone to be completely transparent and show the community that we can bring the "unity" back into community. Let me earn the honor of representing you on the school board. We are all in this together.
