

Darcy Pryor - Candidate Profile Statement

Working with children, youth, and their families has always been a passion of mine. I attended school within the division, and then completed my post secondary education with Mount Royal College in Child and Youth Counselling. My husband Jared, and I currently have a combined farm/ranch operation and we have 2 school aged children. Being Vice Chair for our School Community Council has given me the opportunity to play an active role within my children's school. I recognize the importance of having a strong representative for the rural area within the Prairie South Board of Directors and would be a strong advocate for your child's school, education and enriched learning. Finally, I understand the gifts and challenges afforded to families who live outside the city and would be honored to be a trustee for subdivision 1.
