

TRANSPORTATION

Transportation Services

Prairie South School Division provides transportation for students requiring access to school in accordance with *The Education Act, 1995*, *The Highway Traffic Act*, and *The Vehicle Administration Act*. In addition, provisions are made for special use of buses to enable students to participate in learning and learning-related activities.

Student transportation shall be operated with due regard for safety, fiscal responsibility, length of ride and parental satisfaction. The safety of students and staff is paramount.

Procedures

1. Eligibility For Transportation

Students will be provided with transportation based on the following criteria:

- 1.1 Urban (City of Moose Jaw boundaries) Students (Prek-8)
 - 1.1.1 Grade 1-8 students who reside within the school catchment area of the school they are attending, and live outside a one kilometer radius from the school.
 - 1.1.2 Prekindergarten and kindergarten students who reside within the school catchment area of the school they are attending and live outside a 500 meter radius from the school. Parents/Guardians of prekindergarten and kindergarten students are required to accompany their child(ren) to the bus stop for pick up and drop off;
 - 1.1.3 Students are required, by the division, to attend a school other than their home school;
 - 1.1.4 Students whose walking route to school is considered to be hazardous, with hazardous areas to be determined by the Transportation Committee.

Grades 1 to 8 students may be required to walk up to one kilometer to access their bus stop.
- 1.2 Grades 9 to 12 students will not be bused in Moose Jaw with the following exceptions:
 - 1.2.1 Students attending Life Skills programming
 - 1.2.2 Students attending Student Age Parent programming
 - 1.2.3 Other students as deemed necessary by the Board
- 1.3 Rural Students (K-12)
 - 1.3.1 Students who are attending the catchment area school that is designated by the location of their primary residence and who reside outside of the town where the school is located;

- 1.3.2 In Assiniboia grade PreK-8 students will only be bused from the area located west of 2nd Street West. Grades 9 to 12 students will not be bused in Assiniboia;
 - 1.3.3 Students who are required to attend a designated program housed at a school other than their home school.
- 1.4 Transportation Boundaries (School Catchment Areas) relating to transportation services are to be recommended by the Director of Education and approved by resolution of the Board.
- 1.5 Hazardous Areas Resulting in Busing Exceptions

The list below includes all the hazards in the school division which result in students being bused to school rather than having to walk to school.

 - 1.5.1 Craik School Catchment
 - 1.5.1.1 The town of Craik has multiple railway crossings. We bus students to Craik School who live on the opposite side of the tracks from where the school is located.
 - 1.5.2 Prince Arthur School Catchment
 - 1.5.2.1 An alternated catchment area is in place due to the railway tracks on Caribou Street East and 4th Avenue NE. Students can walk down 4th Avenue NE to Athabasca and go under the tracks which adds more time. The walking catchment has been adjusted to take this into consideration for students walking in the area between.
 - 1.5.3 Sunningdale School Catchment
 - 1.5.3.1 Coulee between Sunningdale School and Sunningdale area. The area is not kept clear in the winter and therefore is not considered a road students can use. Altered catchment line is in place.
 - 1.5.3.2 9th Avenue NW and Thatcher Drive. This is considered a high traffic area with multiple semis, buses, and large vehicles using this intersection. It was determined this is a hazard and students from VLA and West Park will be bused to Sunningdale School.

3. Regular Student Transportation

- 3.1 The Transportation Manager is responsible for bus scheduling and routing in consultation with the Director of Education:

- 3.1.1 Buses are to be restricted to provincial highways, municipal roads, and approved yard service.
- 3.1.2 Yard service may be approved if the access road is of all weather construction, and there is a clear area to enable the bus to turn around without backing up.
- 3.1.3 Time schedules are to be based on normal travel conditions. The schedule is to be communicated to parents with the directive that under normal conditions buses will wait no longer than two minutes at any one pickup point, nor will they leave any pickup point ahead of time, unless all students have been accounted for. Buses are to arrive at school no earlier than twenty minutes prior to the usual commencement of classes, unless the bus must proceed to a second school and the driver requires the time for appropriate scheduling of arrival time at the second location. Buses depart from the school ten minutes after dismissal time.
- 3.1.4 The Board strives to ensure bus ride times of less than 90 minutes from pick-up to arrival at school and also from departure from school to drop-off. The board shall receive a report annually documenting ride times of 90 minutes or more by catchment area.
- 3.1.5 Variations in scheduling or routes are to be communicated to parents.
- 3.2 There may be circumstances or conditions making it necessary to arrange for transportation other than through the provision of busing. In these cases the Director of Education may make special arrangements in consultation with the appropriate superintendent.
