

## Human Resources Accountability Report

Amy Johnson, Superintendent of Human Resources presented some of the highlights from 2021-2022. Prairie South employed 1272 people in our schools and buildings which is the exact same number as the previous year! A significant number of employees took advantage of our tuition reimbursement program and continued with their ongoing education – we invest in our employees' education! The number of workplace injuries and time loss injuries has decreased significantly, as well as our costs. We have no outstanding grievances during the reporting period which shows what a great relationship we have with our employee groups. We brought the Not Myself Today program to all staff as another tool to address workplace mental health wellness. Through this program, tools were shared in a multitude of ways, including online access for all staff, activities and information shared through bi-weekly emails and staff meetings.

## First Quarter Financial Accountability Report

Ron Purdy, our Superintendent of Business presented the First Quarter Financial Accountability Report. Our budget year runs from September 1, 2022 to August 31, 2023. This report covers the first three months of our budgeting period, September 1, 2022 to November 30, 2022. At this point in the year, Ron indicated that we are on budget; however, it is very early in the year and we need to be aware of outside factors which may impact our final numbers.
