HIGHLIGHTS

SCHOOL & DIVISION IMPROVEMENT ACCOUNTABILITY REPORT

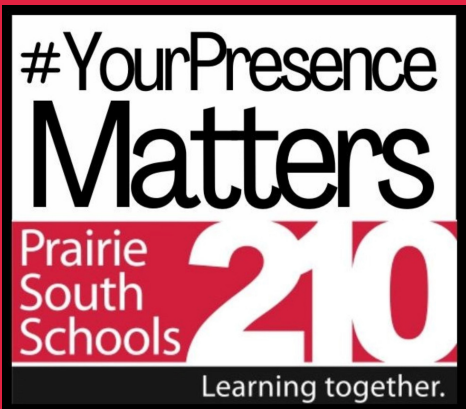

The 2024-25 School and Division Improvement Accountability Report outlines Prairie South Schools' processes for aligning school Learning Improvement Plans (LIPs) with the Provincial Education Plan and the division's strategic priorities of Skills & Knowledge, Connection & Relationships, and Inclusive, Safe & Welcoming environments. LIPs are data-driven, collaboratively developed by staff and School Community Councils (SCCs), and reviewed annually by superintendents.

For 2024-25, 84 LIP goals were submitted, with 37 meeting their targets (up six from last year). Academic goals focused primarily on reading (24 schools), writing (10), and math (16). Well-being goals targeted belonging, attendance, and engagement. SCC involvement expanded through planning sessions, community events, and initiatives such as literacy nights, attendance campaigns (#YourPresenceMatters), and technology awareness activities.

Overall, the report highlights progress in school goal achievement, enhanced SCC collaboration, and growing community engagement to support student learning, attendance, and well-being across the division.

ATTENDANCE #YOURPRESENCEMATTERS

The Ministry has taken notice of Prairie South's strong attendance efforts, which is up to almost 95% for the month of September! We know that when we get students into the classroom, our incredible staff will provide them with the education and support they need. The work that is being done with our dedicated team in our schools, Superintendent Derrick Huschi, and the leadership of our Board, is significant and impactful. We are ensuring students are present, engaged, and prepared for a successful future. Everyone's presence really does matter!

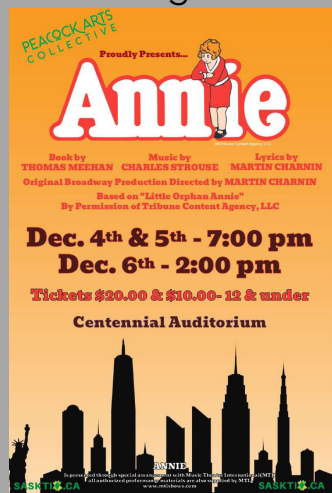

SCC NETWORKING SESSIONS

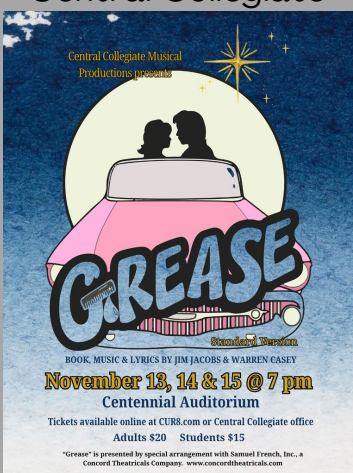

Thank you to our School Community Council members who attended the Networking Sessions in October. And a special thank you to Superintendent Jennifer Prokopetz who led these sessions. The sessions were well attended and we had great conversations about what is helping improve student attendance and how we can keep building on that success. SCC Members shared thoughts on supporting kids and parents in today's social media world, and we talked about ways to attract amazing staff to our schools. There was lots of energy around finding new and creative ways to stay connected with our communities.

Best of luck to all our schools putting on musicals this fall.
