STUDENT LEARNING ACCOUNTABILITY REPORT

Prairie South's 2025-2026 Student Learning Accountability Report was presented by Amanda Olson, Superintendent of Learning and Derrick Huschi, Superintendent of School Operations.

The report highlights steady growth across core learning areas, strengthened instructional practices, and continued progress toward key strategic goals. Reading, writing, and math data show most students meeting or exceeding grade-level expectations, with targeted interventions and expanded professional learning supporting those who need additional help. Attendance increased across all clusters, contributing to improved achievement, and graduation rates remain strong – above provincial averages for both on-time and extended graduation, including significantly higher rates for First Nations and Métis students. The report also notes rising intensive support needs and outlines the division's responsive structures to meet them. Overall, the Board reviewed evidence of a division deeply committed to effective instruction, early intervention, and pathways that ensure every student is supported toward success.

BOARD REPRESENTATIVES ON PROVINCIAL COMMITTEES

Each year our Board nominates a trustee to sit on the Saskatchewan High School Athletics Association (SHSAA) Committee and the Public Section Committee.

This year, Brett Hagan was nominated to sit on the SHSAA Committee and Mary Jukes on Public Section's Committee. Both Brett and Mary were Prairie South's representatives in the 2025-2026 school year.
