

INTERNS AND FIELD EXPERIENCES

Background

The Division believes that every effort is to be made to support the development of persons enrolled in colleges of education or other educational institutes and who are endeavoring to earn the credentials that will allow them to pursue careers as teachers or other roles connected to the education or support of students. To this end, the Division encourages student teachers, teaching interns, and other practicum programs in schools. Employees in the Division are requested to cooperate with the supervision and guidance of individuals who are completing educational requirements.

Procedures

1. The Superintendent of Human Resources, Director or designate will facilitate the placement of student teachers and interns to schools within the Division from the university education programs.
2. Arrangements for placement are subject to the approval of the Superintendents of Operations and the principal.
3. Requests for placement of non-teaching field experience students by other colleges and post-secondary institutions are to be considered for acceptance and approval if satisfactory arrangements can be made by the Superintendent of Human Resources and applicable Superintendent.
